

APPLY NOW!

2026-2027 Undergraduate Research Experience and Mentoring (REM) Program

What REM Is

- An 8 week STEM summer research program with New Frontiers of Sound (NewFoS) that continues the following Fall and Spring (12 month program).
- NewFoS is a national science center made up of universities and labs working together to explore new ways sound and vibration can be used in technology.
- Join a real research lab, work with scientists, and contribute to active projects.
- Learn new tools, strengthen your skills, and grow with supportive mentoring.

What you will receive

- **\$6,500** stipend for summer research
- Necessary summer travel and lodging fully covered
- **\$1,000** Fall 2026 stipend
- **\$1,000** Spring 2027 stipend
- All expenses paid trip to ERN Conference
- Research experience, mentorship, and professional skills that boost applications for internships, grad school, and future STEM careers.
